

Special Discount for Citizens for a Green Mt. Airy

20% Off on All Downspout Accessories

Customize your Aquabarrel Rain Barrel installation:

Filter/debris collector

- Catch large debris from your downspout with a debris collector. The removable aluminium basket filters water that flows into your rain barrel or underground drain system.

Diverter/splitter

- Direct the flow of rain water with a quick flip of a lever—divert water into your rain barrel or let it flow straight down the downspout. Offset, inline, or “Y” diverters are ideal for taking your rain barrel offline for the winter.

Elbows and straps

- 90-degree elbows make it easy to make tight turns or connect your downspout right to the opening of your rain barrel.
- Downspout straps secure your downspout to your house.

Visit our web site, Aquabarrel.com, to order your downspout accessories. Click on “Complete Product List” to make your selections. When you enter “fma20off” in the “Coupon Code” field, you will receive 20% off all downspout accessories.

If you don't want to purchase our products online, just call us at 443-235-3131. We'll take your order over the phone.
